

# Professional Mode Scanning

1.) Make sure to turn on the Scanner before turning on the Computer

2.) Open Adobe Photoshop (located on the Desktop)

3.) Under **File** select **Import** and then **Epson Expression 836XL**

4a.) If you receive this message:

- Click on **No**
- Close Photoshop
- Press the **Reset** button on the front of the scanner
- Restart the Computer
- Start over from Step 2

4b.) If you do not receive the error message; the **Epson Scan Utility** will open

5.) Under **Mode** select **Professional Mode**

- If you receive this message, click **Ok**

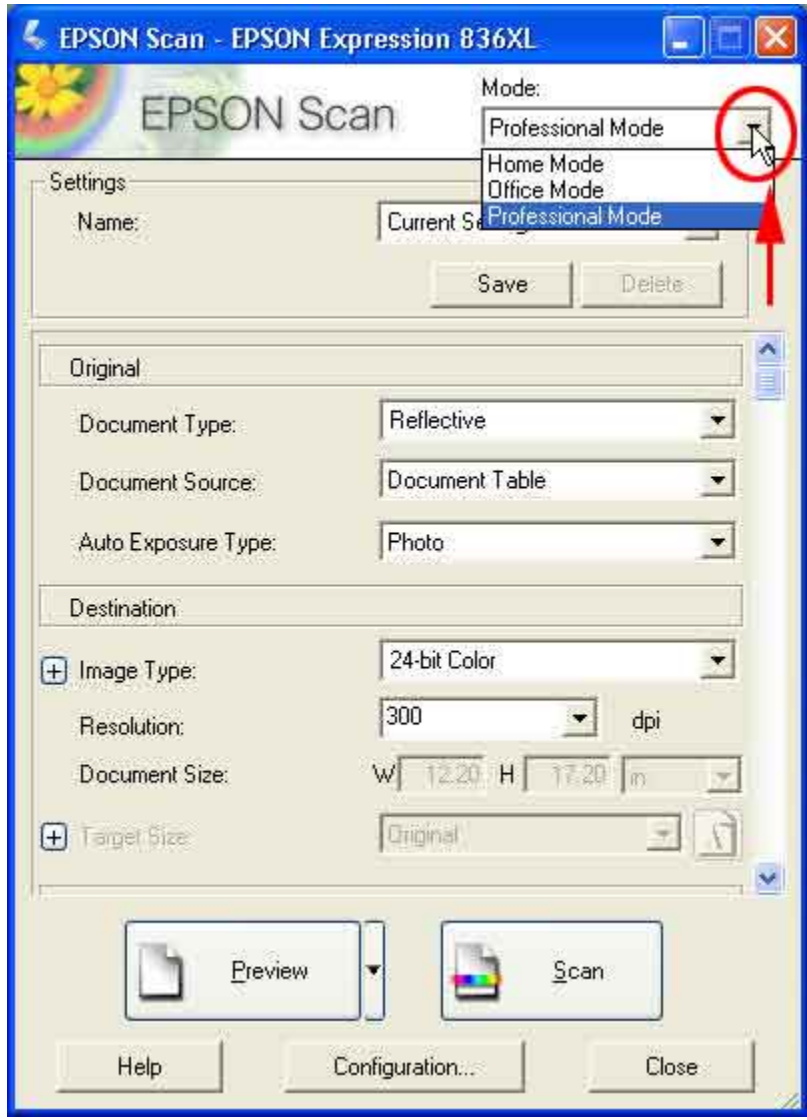

## 6.) Under **Original**

- Document Type - Reflective or Transparent (To Learn More See Page 13)
- Document Source - **Document Table**
- Auto Exposure Type - Photo or Document

## 7.) Under **Destination**

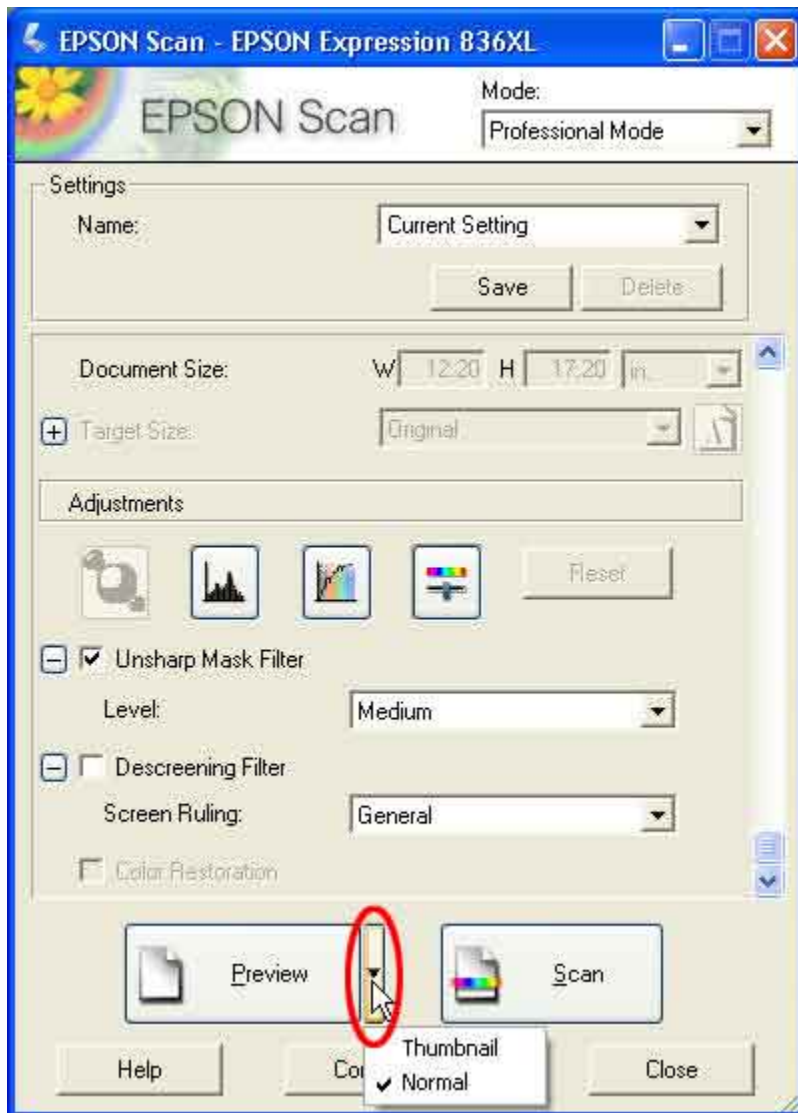

- Image Type - Select the Color and Level
- Resolution - Set the desired dpi (300 dpi recommended)
- Target Size - Click on the + to adjust; then select the size you would like the document to be

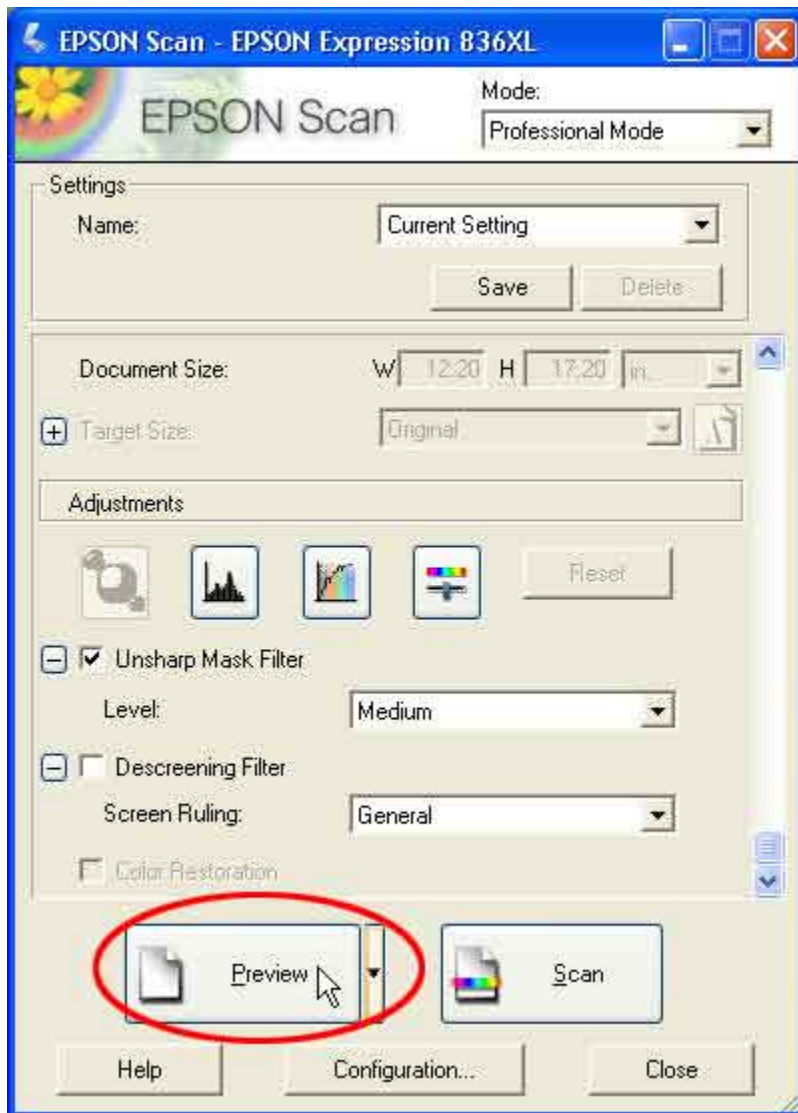

## 8.) Under **Adjustments**

- Brightness
- Contrast
- Saturation
- Color Balance
  
- Unsharp Mask Filter - To Learn More See Unsharp Mask Page
- Descreening Filter - To Learn More See Descreening Page

9.) Make sure the **Preview** is set to **Normal** (triangle next to the **Preview** button)

10.) Click on the **Preview** button

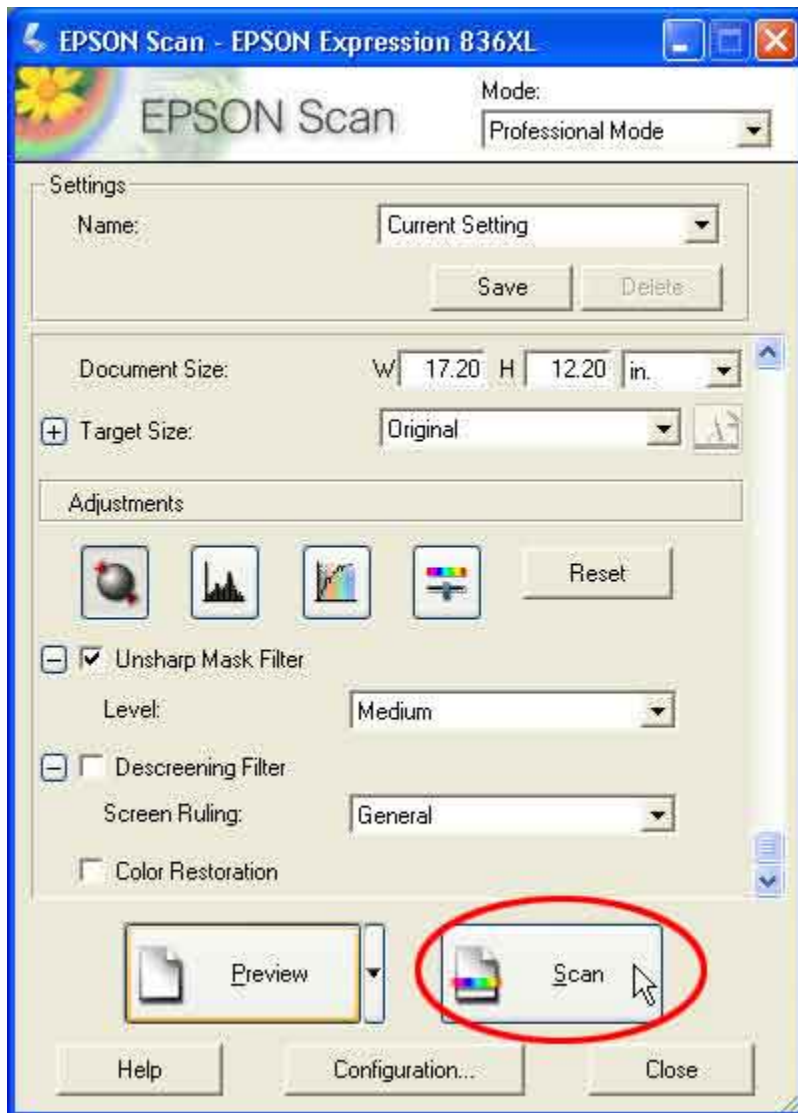

11.) A Preview of the document will open, if you want to highlight a certain area to scan; make a box around the area you want to focus on

12.) Minimize the Preview Window

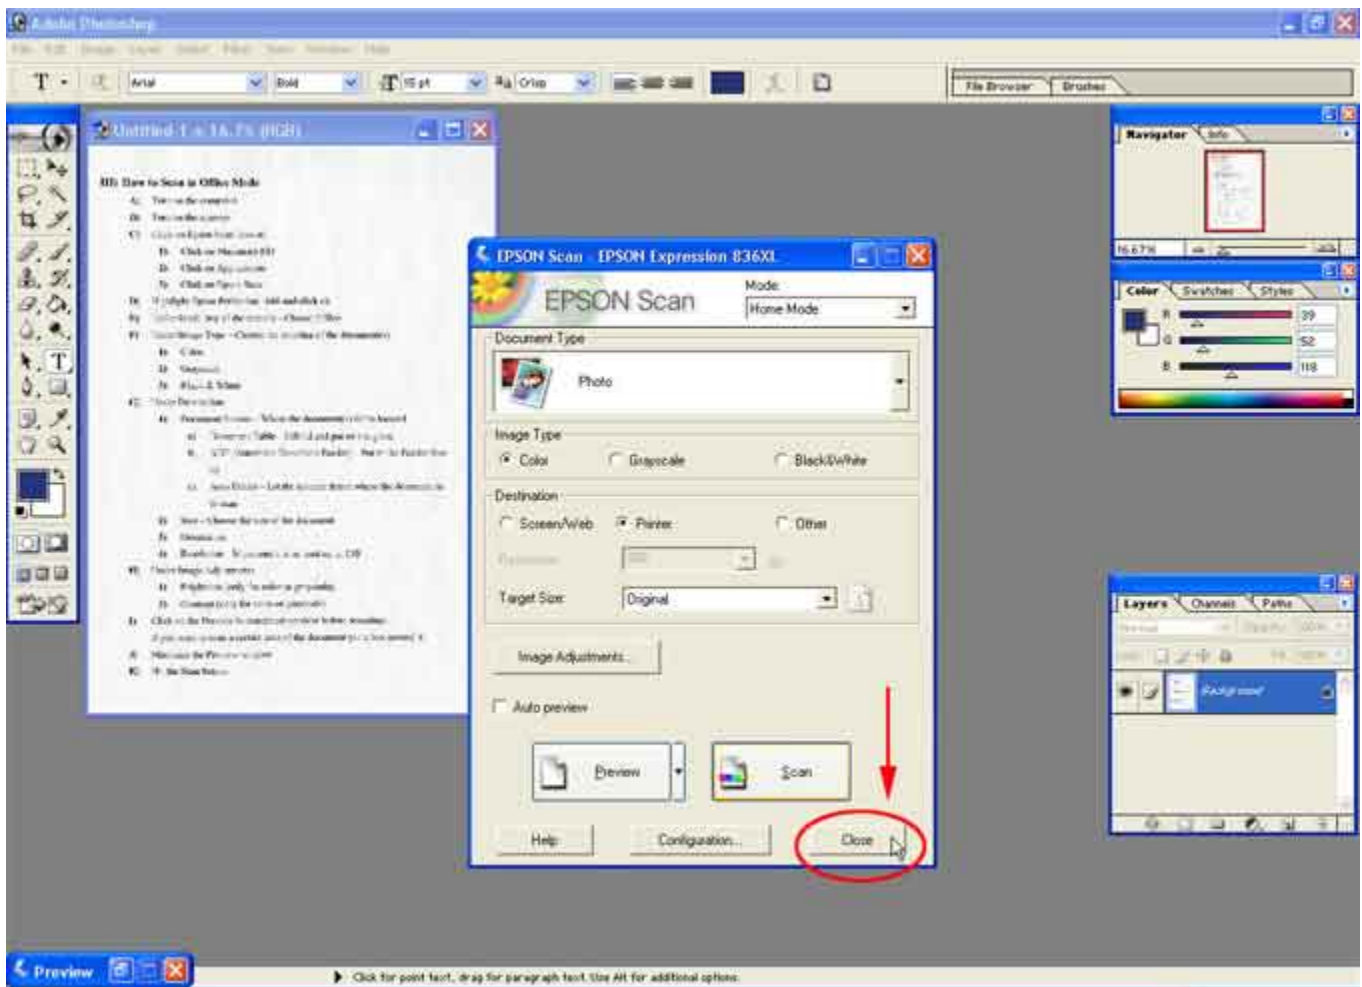

13.) Click on the **Scan** button

14.) Your scanned document will appear in Photoshop - if you like the way it looks you can save it; if not re-scan your document (Return to step 6)

15.) Close the Scan window (if you have more documents to scan, it's best to scan them all first and then close the Scan window; if so Return to step 6)

16.) Make any desired changes to the image

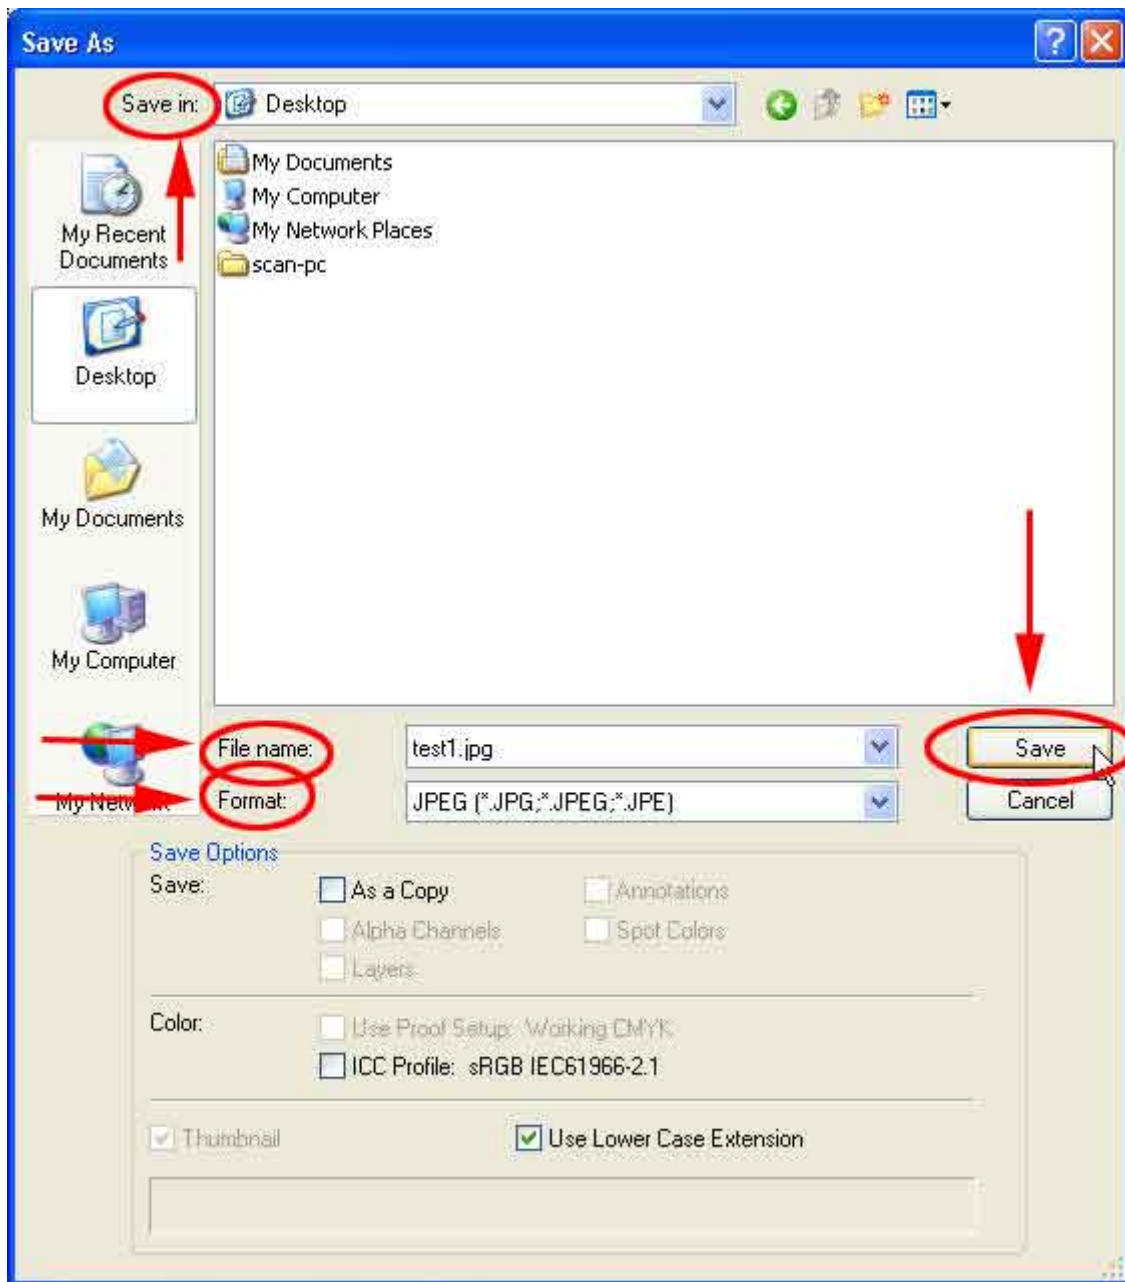

17.) To save the document - Click on **File** and select **Save As**

18.) In the Save As window that opens up:

- **Save in:** Where you want to save the file
- **File name:** Name the file
- **Format:** Select the type of file you'd like to save the document as

19.) Click on **Save**

# Reflective Vs. Transparent Scanning

<b>Reflective Document</b>	<b>Transparent Document</b>
<p>Reflective Documents include: Pictures, Articles, Text, etc.</p>	<p>Reflective Documents include: X-rays, Film, Transparencies, etc.</p>
<p style="text-align: center;">When Scanning:</p> <p>Please make sure the white mat (located under the lid of the scanner) is attached and the gray scanning guide (sitting on the document table of the scanner) has been removed</p> <p>Rollover picture below to see Demonstration</p>	<p style="text-align: center;">When Scanning:</p> <p>Please make sure the white mat (located under the lid of the scanner) has been removed from the scanner and the gray scanning guide (sitting on the document table of the scanner) is attached</p> <p>Rollover picture below to see Demonstration</p>
