

Import from PubMed to EndNote

In PubMed

1. Do a search in PubMed
2. Display the results in "Medline" format
3. "Send to" "File".
4. "Save" as .txt file (make sure to remember the directory under which the file is saved)

In EndNote

1. Open an EndNote library
2. Click "File" and choose "Import"
3. Click "Choose File" to select the desired file
4. In "Import Option" box, click for "PubMed"
5. Choose "Import all"
6. Click "Import"
