## RESOURCES IN NURSING

This guide is designed to serve as a starting point for locating information on any topic in the field of Nursing. Please contact the Information and Education Services Department at extension 2942 or email us at [ref@nso.uhc.edu](mailto:ref@nso.uhc.edu) if you have any questions.

### Finding Books and Journals

To locate books and journals in the library, search LYMAN, the online catalog of the Lyman Maynard Stowe Library. You may access LYMAN from the library's homepage at <http://library.uhc.edu>. Click on the UCHC Library Catalog located on the sidebar.

### Finding Journal Articles

To locate journal articles on a particular subject, a literature search must be executed from one of many online literature databases available in the library. For nursing literature, the following databases are particularly useful: *CINAHL* (Cumulated Index to Nursing and Allied Health), *PubMed* (Medline), *PsycINFO* (psychology database).
