

Connect to UCHC-GUEST wireless network:

UConn Health IT provides patients and guests on the UConn Health Campus with access to the Internet through our UCHC-GUEST wireless network portal.

To connect the UCHC-GUEST wireless network, open your wireless configuration utility on your device.

Select the UCHC-GUEST wireless network SSID that is broadcast.

Next click on the connect button, and then open a web browser.

When you click connect, it will not prompt for anything initially. Once connected, please open a web browser program such as Internet Explorer, and follow the instructions to on the web page to login with the user **guest** and code **uchc**.

Terms of Use

This service allows you to access the Internet during your visit at UConn Health Center in order to use this service you will need to enter your name and access code below. We are pleased to offer this service free of charge to our Guests and visitors. Hospital staff can provide general information on settings required to connect your computer or PDA to the Guest WiFi network. We have configured the Guest WiFi network to support the majority of wireless-enabled systems available. Unfortunately we cannot guarantee that your system will be able to connect to the Guest WiFi network. UCHC staff is not able to configure your device to connect to the Guest WiFi network, troubleshoot your device, or provide additional technical support. The Guest WiFi connection is designed to provide basic Internet connectivity and it does not provide any additional services such as printing or an email account.

YOU MUST READ AND AGREE TO THE FOLLOWING CONDITIONS AND TERMS OF USER PRIOR TO ACCESSING THE UNIVERSITY OF CONNECTICUT HEALTH CENTER GUEST WIFI NETWORK:

The wireless connection to the Internet is NOT SECURE. It is possible that any information transmitted over this connection may be intercepted, altered, or lost in transit. The University of Connecticut Health Center accepts no responsibility for the security of the data you transmit you transmit or receive over the Guest WiFi network or for disclosure of data or system damage resulting from activity related to virus, worm, or other malware activity. We strongly recommend that you maintain appropriate and current antivirus software and apply available security patches to your operating system.

THE WIRELESS CONNECTIONS MAY NOT BE USED:

In any manner or for any purpose that violates federal, state, or local statutes;
To harass or threaten others; To transmit or receive unlawful, obscene, pornographic, or defamatory content;
Infringe any third party's copyright, patent, trademark, trade secret or other proprietary rights;

ADDITIONALLY YOU ARE INFORMED THAT:

The Guest WiFi Network uses content filtering technology to block web content that may be offensive or in violation of University of Connecticut Health Center policy;
The University of Connecticut Health Center may monitor activity on the Guest WiFi network. If such monitoring reveals evidence of possible criminal or unauthorized activity, the University of Connecticut Health Center may provide this evidence to legal counsel and/or law enforcement for prosecution;
Some Internet services may be blocked or filtered by the University of Connecticut Health Center Access to the Guest WiFi Network is provided purely at the discretion of the University of Connecticut Health Center and may be revoked at any time for any reason without notification;

Please enter the following information User: **guest** Code: **uchc** and then click **I Agree** if you accept the above terms and conditions or close your browser if you do not accept the terms and conditions.

For the User field enter: **guest**

For the Code field enter: **uchc**

Note the user and code are both entered in lower case.

Click on the **I Agree** button and the connection to the Internet is complete.
